

LOCATIONS

HEINRICH KIPP WERK is located in Germany. This is where the production takes place and the fully automated, high-performance logistics centre is situated. Internationally, the corporate group is currently represented by 11 company branches. International orientation is a corporate goal.

In addition, more than 50 permanent agencies service all major international markets. Some of these have been your local contact partner for decades.

PRODUCT OVERVIEW

Clamping Technology | Standard Elements | Operating Parts

TRUST IN KIPP

Manufacturing expertise with family tradition

For more than 100 years HEINRICH KIPP WERK has been a quality partner to industry. We offer a comprehensive product spectrum with more than 55,000 elements in the core sectors clamping technology, standard elements and operating parts.

We produce in our machine shop located in Germany. This guarantees rapid response times and short routes. Customers appreciate our production resources and extensive development experience.

Reliability. Longevity. Sustainability. This is what our owner managed company has stood for from the very beginning.
